29 June 2017

Dear Parents,

We would like to take this opportunity to remind you all of e-safety. On our web site there are details of how you can keep your child safe online. You will find an e-safety page under key information and there is a children's e-safety page. We recommend you take time to view this information.

It is very important to take this opportunity to draw your attention to the fact that currently circulating online there seems to be a number of inappropriate horror video clips that are using well known children's characters. Although you may have filters in place, these may not be effective as the characters your children might search for, could take your child to some of these nasty clips. Unfortunately, there are always new ways to get these nasty clips out so please always be vigilant when you allow your children to search online.

In school we always make the children aware of e-safety and in response to being made aware of these nasty clips, the children were also all reminded of the importance of talking to a responsible adult before searching online.

Our e-safety committee have produced a poster for you on what they think is important to remember about e-safety. Please see attached.

If you need any help or have any questions, please contact us.

Yours sincerely and safe surfing!

Lynne Langton (Designated Safeguarding Lead)

Greg Banton (ICT coordinator)

Luci Pickford (e-safety Lead)
